**Shift Networks and Solid Technology Solutions team up to provide leading business telephone solutions for Edmonton and Area businesses.**

CALGARY and EDMONTON, September 28, 2009 /CNW/ - Shift Networks, a leading Canadian provider of hosted Voice over IP (VoIP) telephone solutions for small and medium businesses, announced today that it has partnered with Solid Technology Solutions Inc., a full service IT solutions provider, to distribute Shift's VoIP products and services to the Edmonton and Area marketplace.

"Shift is excited to partner with Solid Technology Solutions Inc. in a market that is very receptive to the benefits of VoIP technology," says Firoz Kassam, Business Development Manager, Shift Networks. "As more and more businesses adopt VoIP telephone solutions, this partnership brings Shift Networks direct access to a valued portfolio of Edmonton clients."

Solid Technology Solutions Inc. will add Shift Networks' hosted VoIP business communications solutions products and services to their current IT solutions offering.

"Shift Networks provides Solid Technology Solutions Inc. with telecommunications products and services specific to small businesses, a niche market currently underserved in the Edmonton area," says Grant Dakin, President, Solid Technology Solutions Inc. "VoIP is gaining momentum as a major benefit to the business services market and working with Shift allows us to add further value to our existing client base."

Shift Networks is a better phone company for your business, offering Hosted Voice over IP calling to thousands of small and medium sized business users in major cities such as Victoria, Vancouver, Calgary, Edmonton, Toronto, Ottawa and 46 other calling areas nationally. Shift's services start at \$29.95 per user per month. For more information on Shift, please contact us at 1-866-770-3001 or visit us online at [www.shiftnetworks.com](http://www.shiftnetworks.com).

Based in Edmonton, Alberta, Solid Technology Solutions Inc. is one of Edmonton's premiere full service IT solutions providers to the small and medium business marketplace. For more information on Solid Technology Solutions, please visit [www.solidtech.ca](http://www.solidtech.ca).
